Friends of the boys from all over the country were here to receive them. Such a demonstration has never before been witnessed in Hutchinson. A committee from the Commercial Club met the train at Newton. When the train pulled into the city it had to wait until the crowd could be moved back from the track. A big banquet was awaiting the boys at the Grand Army hall, to which place they marched, led by Holiday's Military band. Company E has lost only two men since entering the service. Albert Eales, of Hutchinson, and Albert Atkinson, of Elmer. Both privates. Word came from Leavenworth last night that some of the boys had not money enough to come home. The Commercial Club wired \$200 for railway fare, so that none should be left behind. The regiment has a month furlough.

EIGHT GOLDSEEKERS DROWNED IN KOTZEBUE SOUND.

OFFICIAL REPORT FROM COPPER RIVER COUNTRY.

Commander Sebree, of the Gunbons Wheeling, Says That Provisions Are Plentiful and Cheap and That There Will Be No Starvation.

SAN FRANCISCO, Sept. 29 .- Charles Ex Watson, a mining man of Carson City, Nev., who has arrived here on the bark Northern Light from Kotzebue sound, tells of how eight goldseekers lost their lives, He says:

"On the night of August 17, Fred Howard, Irving Howard, Joseph Graham, Samuel Wilmeth, of Providence, R. I., and J. G. Sturke, of Grub Gulch, Madera county, , who went North on the bark Mermald, were drowned while trying to get across Hotham inlet with their provisions. A storm arose and capsized their small boat. When morning came the other prospectors missed the Rhode Island party, as they were called, and the searching party that was sent out found the boat floating keel up, but no trace of the men. The provisions and other effects belonging to the hapless party were cast up on the beach by the waves.

"George W. Muller, of Iowa, was drowned on August 13, while ascending the Kubuck river. Muller and his partner had moored their boat under a sandbank that caved in on them, capsizing the craft. I was near by and rescued Muller's partner just in the nick of time.

"Two men named Clark and Crawford were drowned in the Kubuck rapids. I could not ascertain their baptismal names or where they hailed from.

Watson says he is satisfied there is very little gold in the Kotzebue country. WASHINGTON, Sept. 29.—The navy department has received a report from Commander Sebree, of the gunboat Wheeling, dated Orica, Alaska, September 9, giving a general outline of the conditions at Valdes and Orica in the neighborhood of the gold deposits on Copper river, which contains information valuable to miners because of its authentic and official character. The commander says that he found 500 people at Valdes on the 6th of September, about 300 of whom were keeping stores, restaurants and so forth. There were about 200 eturning miners, and they were coming back every day at the rate of from two to fifteen. About 3,000 people went in over the glacier and up the Copper river, and there are probably about 1,200 people now in the interior, many of whom are building log houses and arranging to stay in all

winter. In the interior, provisions are plentiful, Men returning sell their outfits, so that provisions, clothing, etc., over the glacier are selling at less than half Seattle prices. At Valdes, about sixty-five of the returning miners were being fed by the government. These men say they have no money. They are required to work about two hours day on the government reservation.

They are required to work about two hours a day on the government reservation. At the hotel kept by the agent of the Steam Whaling Company, about fifty men were being fed and lodged for 75 cents a day, and the agent offers to employ men at \$2.50 per day, the money to be used to pay passage to Seattle. Provisions at Valdes could be bought at about haif Seattle prices and one tradesman was about to ship back a lot of provisions that he bought from returning miners to sell at Seattle at a profit.

Before the winter sets in from 200 to 500 miners were expected to return to the coast from the interior. Some of these have no money and are asking if the government is about to send a ship to take them out. Miners are crossing the glacier in from twelve to fifteen hours.

In conclusion, Commander Sebree says that possibly 50 per cent of the miners on the coast have no money. Judging by the prices of provisions at Valdes and from information given by the miners, there is at Valdes and in the interior plenty of provisions for all the miners in the Copper river country all winter, so there is no danger of starvation.

The Wheeling was about to leave Orica on the 10th of September on her return to Dutch Harber and after coaling to proceed to St. Michael for a coast survey party.

presided over by Bishop B. T. Tanner, D. D., LL. D., whose episcopal residence is at Kansas City, Kas., and who presides over the district comprising Kansas, Nebraska, Colorado, Montana, New Mexico, Utah, and Missouri. More than Lo ministers were present and took part in the opening exercises this morning, Rev. Mr. B. W. Oakes, of the Kansas conference, preached the opening sermon.

After the sermon the holy communion was administered by Bishop Tanner.

Secretary Lewis called the roil of conference members, all answering present except one, who had died during the conference year. After the roil was called, the following officers were elected: Rev. Mr. E. R. Vaughn, secretary; I. N. Triplett, recording secretary; L. H. Harris, statistical secretary; M. McFerrin and H. M. Flavell, marshals. In opening the conference Bishop Tanner delivered an address on "Ministerial Zeal and Dignity."

Bishop Tanner thought that the time had been reached in the history of his church where nothing but the pure and upright should occupy pulpits in the churches, and if there was anyone who had not been doing right they would better start out at once to find other jobs.

The presiding bishop appointed a list of committees, and then proceeded to hear reports of pastors. Dr. C. W. Preston, pastor of the St. Paul A. M. E. church, St. Louis, Mo., and one of the strongest pulpit orators in the African Methodist church, was the first to report. He paid \$612 to the general fund of the conference, and then reported that he had raised during the past year \$10,183,10 to carry on the local work of his church in St. Louis. He was roundly applauded. Dr. F. Jesse Peck, of Allen chapel, Kansas City, Mo., stood second in his report. He had \$90 for the general fund, and had raised \$7,000 turing the year to carry on the local church work.

To-night the Publication anniversary was celebrated. Rev. Dr. H. T. Johnson, of Philadelphia, editor of the Christian Recorder, the organ of the church, delivered an address.

The African Methodist church is the ol

an address.

The African Methodist church is the oldest negro church organization in America, and has a membership of 700,000. Bishop Tanner, who is presiding, stands at the head of the episcopacy as a scholar. He was elevated to the high office at the general conference of his church held in Indianapolis, Ind., in 1888, and has accomplished much good for the church and his race.

SPANISH SOVEREIGNTY TO END

AFTER THAT, SOME FORM OF SELF-GOVERNMENT DESIRED.

American Protection or Even Annexation Would Be Welcomed-Senor Agoneillo Waiting for News Before He Sees the President.

Sept. 29. - Senator WASHINGTON, Chandler, of New Hampshire, who is taking a personal interest in the Philippine question, and General Greene, who accompanied Senor Agoncillo, the Philippine delegate, on his trip here, had a long conference with him to-day. Senator Chand ler said afterward that there was no doubt the president would receive the delegation, the delay being due to the desire of the delegates to get full information on the condition of affairs at home. They had come a long way, and the senator felt that they were in a position to give the authorities here much intelligent information on the people and affairs of those with whom we are now brought into such close relations. When asked to sum up the desires of the Philippine delegates, Mr. Chandler said:

"The first and most essential purpose is to have the treaty of Paris-the final treaty which will stand for all time-contain an article terminating absolutely, the sovereignty of Spain over the Philippines. It is not alone the termination of Spanish sov ereignty over the Island of Luzon, or Manila, that they desire, but the end of Span ish rule over the entire group of islands. And it is conceded that if Spanish sovereignty is to be brought to an end over the island of Luzon, it should also be brought te an end over the whole archipelago, for it would not do to dispossess Spain of the island of Luzon and still leave her free to ransfer adjacent islands to Germany or other foreign powers.

"The disappearance of Spanish rule from the Philippines being assured, the next purpose of the Filipinos, as I gather from their delegates, is to have an opportunity to try their capacity for self-government, under American protection, if need be, during the transition period, or, if that seems inexpedient, then they want this govern-ment to assume the direction and control of affairs, by annexation or such other method as may best meet the condition of affairs. They seem to feel satisfied that the question of future rule can be solved without difficulty, after the first great aim of terminating Spanish rule is brought

The reports from Manila that Aguinaldo vould to-day hold a grand ceremony to proclaim the Republic of the Philippines, with himself at the head, has not been nade known to Agoncillo. He said to-day through his secretary and interpreter, Mr. Lopez, that reports of a more or less important character had come to them ever since they had landed, but they were without official verification as to any of these steps, and this largely accounted for their inactivity, as they desired to know exactly what resolutions and policies had been adopted by the Philippine congress.
